

VOLVO S1, S2, S3 ADAPTER COUPLERS

Volvo S1, S2, S3 couplers are also known as Bofors and Ackerman. Used on plate compactors, hydraulic rock breakers, shears, pulverizers or any other Excavator Attachment. Bolt-on or Weld-on styles available.

Weld-on style without bolt-holes (normally in stock) do not require the bottom surface to be machined perfectly flat. Any bolt-on style top mount normally needs to be milled flat (see Milled Flat Bottom Plate option below).
