

LOW PROFILE SCOOP RAKES

PHONE: 1-800-952-7849 EMAIL: trk@trkattachments.com WEBSITE: www.trkattachments.com
19 Yale Crescent, St. Catharines, Ontario L2R 2Y6

TRK's Heavy Duty Low Profile Scoop Rakes feature an extra wide body with close tines. These are used after all the large rocks and big stump have been removed. They work great to get all the loose roots and smaller rocks out, leaving you with a nice landscaped finish.

Built Tough

Constructed from North American made T1 & AR400 Steel at all critical points.

Thick Shanks

Thick shanks support themselves without gussets.

Tube Supports

Heavy wall tube supports.

Moderate Applications

Heavy Duty Low Profile Scoop Rakes are not designed for extreme applications (eg. Deep penetration in hard ground, ripping out large stumps and rocks, etc). TRK Severe Duty Scoop Rakes are designed for these extreme applications. Please inquire.

**The customized range for the Screening Gap is 4" to 8"
